What is the chicken program?

For a small fee of \$60, you could play an integral part of a chicken's life at the farm for the summer and fall. This money will pay for the chicken, feed AND 8 visitations with chicken lessons and activities.

LEARN:

Over the course of the summer and fall you will learn everything about chickens from the different breeds available to daily care to how they lay their eggs. You will get to spend quality time with the chickens while feeding them, petting them and, in the fall, checking for eggs!

VISITATIONS/PROGRAMS:

At specified dates and times, visitations and activities will be available at the farm at designated dates and times. (See application for details)

**Great fun for all -
young and old!**

PLEASE NOTE: At the end of the program, all chickens go to a local farmer to live with other chickens in a nice chicken coop to produce eggs. We send them off on their way at the Harvest Festival Chicken Parade on October 20th.
